

Twitter Directory Submission

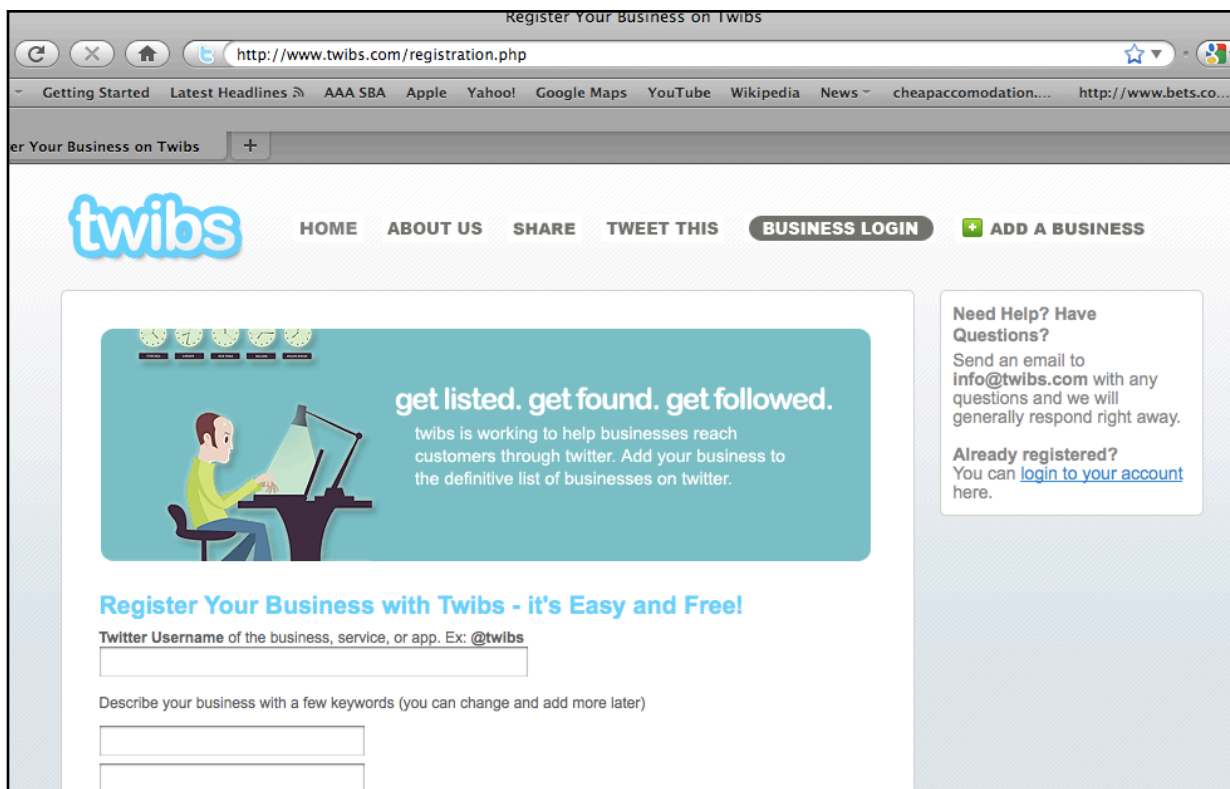

SearchForecast suggest that website owners submit their URLs to Twitter Directories using the links below.

It is important to understand that most search engines don't guarantee that submitting your website into these directories will result in it being displayed in search engine results pages.

However, the links below are for free submission to the major Twitter Directories.

Directories	Links
Twibs	http://www.twibs.com/
Tweetfind	http://www.tweetfind.com/
Justtweetit	http://justtweetit.com/
Twellow	http://www.twellow.com/
Geofollow	http://geofollow.com/
Wefollow	http://wefollow.com/

There are many software packages that allow you to create an automatic submission process however SearchForecast understand that you can customize your submissions to each Twitter directory.

The screenshot shows the registration page for Twibs. The browser address bar displays "http://www.twibs.com/registration.php". The page features a navigation menu with "HOME", "ABOUT US", "SHARE", "TWEET THIS", "BUSINESS LOGIN", and "ADD A BUSINESS". A central banner reads "get listed. get found. get followed." and includes an illustration of a person at a computer. Below the banner, the text states: "twibs is working to help businesses reach customers through twitter. Add your business to the definitive list of businesses on twitter." The registration form includes a field for "Twitter Username of the business, service, or app. Ex: @twibs" and a field for "Describe your business with a few keywords (you can change and add more later)". A sidebar on the right contains a "Need Help? Have Questions?" section with contact information and an "Already registered?" section with a login link.
